31 October 2020

ACADEMICS: Night study hall will resume on Sunday night, November 1, 2020. Math Lab will be open on Sunday evening, November 1, 2020. Science Labs will be open Tuesday and Thursday evening during Night Study Hall.

ATHLETICS: Beginning Monday, November 2, 2020, Coaches will resume responsibility for their team physical fitness. Corps PT will resume (weather dependent) on Monday, November 2, 2020. SROTC will be responsible for the ECP Cadets and Coach Bergman will supervise the PT for the Preps.

CORPS: Once you are cleared medically, you will be issued a GOLD colored wrist band. The GOLD band is a required uniform item and will always be worn on your left or right wrist until further notice. A GOLD band is required to enter buildings on post except for YOUR assigned room, adjacent sink room, and the infirmary.

You are not to interact with any of the returning cadets while they are quarantined. Breaking quarantine is Endangering another Cadet (64/64) and will result in suspension.

Cadets that have quarantined off post will receive a GOLD band once cleared by the infirmary. Cadets without a GOLD band are strictly quarantined until cleared by the infirmary. While in quarantine you are restricted to your assigned room, the closest sink room, and the infirmary. You will be allowed to pick up meals delivered to sally port of your barracks. Breaking quarantine is Endangering another Cadet (64/64) and will result in suspension.

FRIDAY RETURN TO CAMPUS AND TESTING:
171 Cadets were tested on Friday. We are waiting on the results from DOH. Eleven (11) did not return as directed. Four of those have been contacted and will return Monday and be tested by Pathology Consultants. Seven are still outstanding, attempts will be made over the weekend to contact the Cadet or the family. One Cadet left prior to the quarantine for a medical furlough and is not expected to return. Twenty-five (25) will return on Sunday. These Cadets did not require testing based on CDC guidelines.

Respectfully,

Jerry Grizzle
